

# Defoamer

An effective concentrated all-purpose liquid defoamer for industrial and commercial applications. Reduces and hinders the formation of foam and industrial liquids. Excellent for use in carpet machines and floor scrubber extraction (pickup) tank.

## How to Use

**Steam Cleaning or Wet-Vac System:** Add 1 pak to 4 gallon pick-up tank.

**Industrial and Commercial Applications:** Add 1 pak to one gallon of water. Mix well. Spray directly on foam until suds are eliminated.

## Where to Use

Best for use in Steam Cleaners and wet vacuums.

U.S. Patent No. 6,037,319

### Technical Data

**Pak Size:** 7.5 Grams

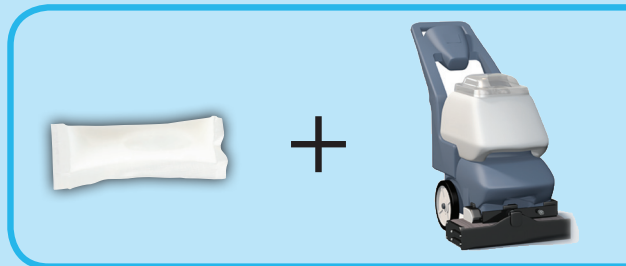

**Solubility in Water:** Complete

**pH at Use Dilution:** 7.0 ± 0.5

**Color:** Hazy White

**Fragrance:** Unscented

**Phosphates:** None
